

**Invitation
National Freeski Judges Clinic 2026
in Innsbruck**

Innsbruck, 5.10.2026

Dear all,

we are pleased to invite you to the National Freeski Judges Clinic 2026
on November 7th and 8th, 2026 in Innsbruck.

The training to become a national Freeski Judge is much more than just an introduction to the world of competition judging. It offers the opportunity to experience freeskiing from a new perspective, build sound expertise, and actively contribute to the quality and further development of our competitions.

Whether you are aspiring judges, coaches, parents, support staff, or enthusiastic freeskiers – the clinic provides practical knowledge of evaluation criteria and decision-making processes in modern freeski competitions. At the same time, it builds a deeper understanding of the achievements of our athletes of all ages.

The clinic will take place at the Ski Austria headquarters in Innsbruck. Detailed information about the schedule, course times, and other organizational details will be sent to all participants after registration.

What you can expect:

- Acquisition of the national C license, which qualifies you to judge at national events and is the first step towards an international FIS judging career.
- Comprehensive insights into the judging systems and criteria of freestyle skiing.
- Valuable know-how for coaches to better assess performance and develop athletes in a targeted manner.
- A deeper understanding of competitive skiing for parents, caregivers, and all interested parties.

No special prerequisites are necessary to participate in the clinic. However, we recommend that aspiring judges have a good basic understanding of freestyle skiing and an interest in freestyle competitions.
